### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests the claimed location of a compressive stress modification layer. Although Freitag et al (US PAP No. 20050180057 A1) show seed layers 224, 226 and 228 under AP-pinned layer structure 212, the prior art of record provides no motivation for a person of ordinary skill in the art to take the antiferromagnetic PtMn pinning layer 223 out of contact with either seed layer 224 or AP-pinned layer structure 212 by inserting a compressive stress modification layer between the seed layer and the AP-pinned layer structure 212.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The substitute oath or declaration has been received and is acceptable.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julie Anne Watko whose telephone number is (571) 272-7597. The examiner can normally be reached on Monday through Friday, 1PM to 10PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne D. Bost can be reached on (571) 272-7023. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
